

Meet the FIAT-IFTA National Members

According to the FIAT-IFTA Constitution, a national or international association representing the funeral and/or thanatopractice service may apply to become a National Member of the Federation. Each country may have only one National Member. In the event that a country does not have a national association as a National Member of the Federation, any funeral service company may apply to represent its country as a National Member. National Members are entitled to have a more extensive association/company profile on our website www.thanos.org. They also may use the words 'FIAT-IFTA ELITE NATIONAL MEMBER' in association with the FIAT-IFTA logo (and www) in their business publications.
